

1. Name of Panel  
Life Drawing 101

2. Description (the one that will most likely go into the program book)  
Learn the essentials in any art field. Here we will explore drawing the human body the only right way to do this.. by drawing an actual HUMAN from life! Basics of construction and structure lines will be gone over as well as some basic measurements as hard and fast rules, but by no means the begin all and end all. This crash course will be presented by Yad Mui, who has had faaar too many years of drawing just about everything. There will be a \$15 materials and model fee for this workshop.

3. How long would you like the panel to be?  
2 Hours

4. How big do you expect this panel to be (in people)?  
No idea

5. What kind of room layout would you like?  
Work shop layout with tables

6. What are the technical requirements of this panel?  
None

7. What are the time conflicts or requests you'd like to make?  
Not during cosplay and not on Sunday.
